Assessment Rate Notice for SFY2022

This is the annual announcement advising you of the new assessment rate for State Fiscal Year (SFY) 2022. On April 21, 2021, the Commissioner of Health set the SFY2022 Assessment Rate for the Vermont Vaccine Purchasing Program based on the recommendations of the Immunization Funding Advisory Committee.

The new monthly rate for child covered lives will be \$12.02. The new monthly rate for adult covered lives will be \$1.70. These rates will take effect for amounts due on August 15, 2021, November 15, 2021, February 15, 2022, and May 15, 2022 for the measuring months of April through June 2021, July through September 2021, October through December 2021, January through March 2022, respectively.

The first quarterly assessment at the new rate in this notice will be payable August 15, 2021. The assessment due on May 15, 2021 for the measuring months of January through April will be at the 2021 Assessment Rate of \$9.26 per child per month and \$0.96 per adult per month as set on April 21, 2020.

As advised when the SFY2021 rate was set last year, the SFY2022 assessment rate has returned to normal levels. Last year there was a one-time subsidy that created a favorable cash position reducing the assessment rate and created an expectation of an increased rate this year. For planning purposes, the best estimate at this time for the SFY2023 assessment rate is \$10.91 per child covered life per month and \$1.60 per adult covered life per month. The SFY2023 assessment rate is expected to be reviewed for final determination in April 2022.

We thank the payer community for their continued support and participation in the Vermont Vaccine Purchasing Program. We also want to express our appreciation to the Vermont Department of Health and business offices for their continued efforts to strengthen the overall accuracy of information supporting the annual VVPP assessment setting process.

The Commissioner's letter approving this change can be found on the VVPP website under the "News & Notices" section at www.VTvaccine.org. As always, please do not hesitate to contact us at any time if we can offer further assistance.

RE: Immunization Funding Advisory Committee Recommendations

Dear Commissioner Levine:

The Immunization Funding Advisory Committee met on April 20, 2021 pursuant to 18 V.S.A. §1130. The purpose of this meeting was to discuss and vote on the cost of vaccines and the SFY22 assessment rate for children and adults for the Vermont Vaccine Purchasing Program.

We are pleased to report that the Committee voted unanimously on these matters after meaningful discussion. 18 V.S.A. §1130(g) provides that the “Committee is established to provide the Commissioner of Health with an annual per-member per-month cost for vaccines for the pediatric population, an annual per-member per-month cost for vaccines for the adult population, and a recommendation for the amount of the yearly vaccine assessment.” The Committee voted unanimously as follows:

To provide the Commissioner of Health with the Committee’s findings that the per-member per month costs for vaccines are as follows:

	Annual Cost	Per-Month Cost
1. Pediatric population cost:	\$119.64	\$9.97
2. Adult population cost:	\$ 17.64	\$1.47

To provide the Commissioner of Health with the Committee’s recommendation that the SFY22 Assessment Rate should be as follows:

	Annual Assessment	Per-Month Assessment
1. Pediatric population assessment	\$144.24	\$12.02
2. Adult population assessment	\$ 20.40	\$ 1.70

We are writing to forward these numbers for your consideration. The statute provides that these numbers will be established by the Commissioner based on the recommendation of the Committee. If you wish to establish these numbers as recommended, we have included a line below for your signature to adopt these recommendations. If you have any questions, please feel free to contact us, and we will be glad to assist as needed. If you wish to set another rate, please provide further guidance on how we should proceed.

Once you have established these rates, VDH has directed KidsVax® to publish them to the website at www.VTvaccine.org. We will also update the assessment system with these new numbers. We look forward to hearing from you. If we can be of assistance, please do not hesitate to contact us.

Sincerely,

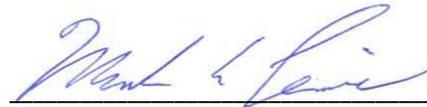

Fred L. Potter
KidsVax®

After reviewing the recommendations of the Immunization Funding Advisory Committee, and after consultation with Christine Finley, the Immunization Program Manager, I adopt the Committee's findings regarding the cost of vaccines. I further adopt the Committee's recommendations regarding the assessment rate and set the SFY22 assessment rate as recommended. I direct VVPP to post a notice of the SFY22 Assessment Rate at www.VTvaccine.org.

Signed:

4/21/2021
